MUNIMJI ERP ™©

#1 Garment ERP Software

Garment Production Cycle Accounting

Purchase (Yarn) → Knitting (Grey) → Dyeing (Fabric) → Cutting → Printing Embroidery → Stitching → Washing → Checking → Alter → Iron → Packaging → Sale

MUNIMJI ERP Software is equipped to organize complete Garment / Hosiery Production starting from purchase to Garment / Hosiery Sales. It deals with Knitting, Dyeing, Cutting, Printing, Embroidery, Making, Packing etc. Job Work Bills for all aforesaid production chain are auto generated. Complete production is controlled by Lot Nos that assists the producer to locate the exact location of the semi finished goods & its quantum at each production centre. Consumption of Fabric / Grey, accessories & Packaging Materials is intelligently handled.

GST Ready

MUNIMJI ERP Software is now ready to face the challenges put by GST Accounting System. Whether it is Sales Invoice or Purchase Invoice, Input Tax Credit or IGST, CGST, SGST, whether Reverse Charge Bill or Tax Payable, whether HSN Code or Place of supply or GSTIN everything is placed at required positions along with all GST Returns (ITC-04, GSTR-3B, GSTR-1 etc.).

Software will give you the required file in EXCEL Format so that you may forward the Sales, Purchases & other essential data to your CA / Tax Practitioners / ASP / GSP to submit your GST Returns to GSTN server after converting in the appropriate formats. e-Way Bill is smartly handled by the software. TCS reporting is also incorporated.
